### A MATTER OF HISTORY.

The San Francisco Alta forecasts great possibilities for the Republican party on the plane of single-minded patriotism and abstention from sectionalism. The estimate of our contemporary, while it has elements of truth, is erroneous in its assumption that the Republican party ever was sectional. It has been so in the mouth of the Democratic party only. Analysis of the declared principles of the party from its birth into political activity in 1856 up to the present day reveals nothing more strongly than that it has been patriotic in the truest and best sense, and, so far from being sectional, has been the party for the whole country, and for no one part of it alone. One of its chiefest aims has been to break down the sectionalism fostered by the Democracy and manifest so South. If disintegration of that solidity is taking place now it is due to realization on the part of the intelligent voting strength of the South that the party has litical foe.

We challenge the proof of history to the contrary if it be not so, that for thirty years the text and preaching of the Demo the South has is the Democracy, and that the Republican party had but one purpose-to consume the South. The truth is tionalism of the Republican party has been simply its endeavor to establish political equality in all parts of the Union, secure to all people equal rights in all sections and to depose an influence born of human slavery and allied very closely to a ruling aristocracy.

Wherein has the party been sectional? Wherein has it failed of patriotic purpose or achievement? What section of our common country has it fostered to the antagonism of any other section? It is indelibly written in the annals of the nation that the one sectional party has been the Democratic, since it alone was wedded to an "institution" peculiar to one section, and it alone, by its platform, declarations and acts, manifested its want of faith in the ability of the country to save itself from disruption. The United States of America, not the Republican party, waged a war against rebellion. But quite the contrary doctrine has been taught at the South by the Democratic priesthood. The Democratic party alone is branded upon the page of history as declaring in the very heat of the labor that the patriotic purpose to preserve the union of States

For the rest, the Alta's forecast that the party will seek a return may be taken as sound, since no other purpose has inspired the organization. In estimating the vitality of a great party we must look at the central principles from which has been the output of its activity, and give no concern to the wayside issues or errors of party men, or even of party

### The Sacramento Squatter Riot.

A correspondent of a San Francisco pa iah Royce, of Cambridge, Mass., relative the account he gives in his book on Caliies: "The case is briefly this atter had a plain and satisfactory title t eleven leagues, a title given in 1841 by Al varado. The technical objections to this grant were frivolous on their face, and were ater overruled by our Courts. Moreover this grant was notoriously intended to in clude Sutter's 'establishment at New Hel etia,' and hence the land on which the new town of Sacramento afterward grew p. All this equitable and legal right of Sutter to the land that he had reclaimed rom the wilderness, and that the Govern gent of the Department of California had given him, were familiar to the new ers of 1849 and 1850, because Fremont' Report' was then a well-known and genreally read book, and because Fremont had stated the facts as they had appeared to distinterested observers long before the gold excitement was thought of. Hence, as I ay, the rights of Sutter must be especiall

tion only to the Alvarado claim, whose validity. I repeat, should have been ob-vious to every honest mind. It is useless o give the failure of the Micheltorena laim as a justification for the predatory assaults on the Alvarado claim. The two were entirely diverse claims, and that 'J. survived. At Madison, Yolo county, last Sunday night, a young man named William Smith had been engaged shaking dice in a saloon, and, after losing some money, left, but not until he had quarreled more or less with all present. After he went away the saloon was closed, and its proprietor—Chris. Lurch—George Keene and others, were walking up the road when they met Smith. "I see in the last 'Central' that
you want a remedy for Sick Headache. If you will use a remedy
that you advertise in your paper
every week. I am sure you will be
greatly benefited thereby and I
believe cured. I have been a sufferer from Sick Headache, I can say
almost from infancy, and have tried
every remedy I could get and never
found anything to do me any good
until I used Simmous Liver Regulator. It has been nearly three
years since I first used it and I have
not had Sick Headache since, and
I never used but two and one-half
packages of the Regulator. I sent
my sister (who had from one to two
attacks of Sick Headache every
week), one-half of a package, and
she has not had it since. I feel for
anyone who suffers with that terrible disease, and I hope you will
give it a fair trial."

For strictly No. 1 feed the asking price is 90c \$\mathbb{P}\$ ctl, though custom was not to be had to-day at this figure. Stock less choice is offered at \$5c, and is taken in preference to the better article at a higher figure for feed purposes. Liberal supplies of Oats and free arrivals of Hay tend to check any buoyant tone in the feed Barley market. Brewing qualities of course hold up well, though there is the usual wide range in quotations. Sales of new Brewing have occurred at 95c, while \$1 \mathbb{P}\$ ctl is the general asking price. From \$1 \mathbb{P}\$ to \$1 50 \mathbb{P}\$ ctl will about represent the limits for old Brewing, though it is likely that a choice parcel would readily bring \$1 52\mathbb{P}\_2 \mathbb{P}\$ ctl.

# CLUNIE & KILEY, DRY and FANCY GOODS,

Corner K and Eighth streets, Sacramento, Cal.

Our object is to serve the public faithfully, and make an honest penny for ourselves. We are not in the habit of reducing the price on one article for the purpose of blindfolding our customers and advance the price on other classes of goods to make up for the loss.

We claim to be honorable, square and upright in every business transaction, and shall not be undersold as long as we do business in We have as fine a line of DRY AND FANCY GOODS as can be found in this country, and we sell them at prices that defy competition, and we shall continue to remain with the good people of Sacramento, to serve you with FIRST-CLASS DRY AND FANCY GOODS, at the LOWEST CASH PRICES.

CLUNIE & KILEY,

Corner K and Eighth streets, Sacramento, Cal,

public to learn that the WHOLESALE GROCERS of Sacramento have BOYCOTTED the "AMERICAN CASH STORE," at the demand of the GROCERS' UNION of this city, and I have found it impossible to buy a barrel of Sugar in town.

I hear that the reason assigned for this action of the GROCERS' UNION is that I sell Groceries so much below their old-time credit prices that it interferes with their business, and it is obvious that this method is resorted to to force me, if possible, to close the AMERICAN CASH STORE, in order that they may again be enabled to conduct business without offensive opposition.

I assure the people of Sacramento that I, however, have no idea of giving up to this Monopoly, who regard me as a common enemy, and outnumber me twenty-five to one, and with a continuance of their liberal patronage will live on, and, as heretofore, sell the best and freshest GROCERIES at LOWER PRICES than can be found elsewhere in the city. Respectfully, O. F. WASHBURN.
